

The 15th Offshore Asian Pacific Conference (OAP 2018)

It is with great privilege that I welcome you all to the 15th Offshore Asia-Pacific Conference in Kuala Lumpur on the 15th-16th January.

About Conference

Aiming to focus on the dynamic offshore E&P activities and opportunities

In Asia Pacific, the 15th Offshore Oil and Gas will bring 500+ experts and decision makers together from around the world to highlight the latest advancements and technologies related the deepwater projects, drilling technologies and floating production market. Kindly join the event which is highly recognized for its unique working opportunities, eminent speakers and an expanded program which Offers topics covering the whole chain and highlights the cooperation opportunities.

Whilst there are still numerous challenges to be faced, we enter 2018 with a cautious optimism. The 15th Offshore Asia-Pacific Conference will undoubtedly be an excellent venue to discuss the future of our industry and I certainly look forward to hearing your views over the course of the event.

The speaker from Pertamina said: It was a well-organized conference with impressive event contents. The communications and visits were quite helpful.

The speaker from Petronas said: It is a good place to have new information for deepwater technology. Good presentations and the organizer did a great job.

The speaker from Chevron said: Well organized and interesting speech, this is a good platform for us to develop deepwater business. Overall the event is useful.

The speaker from ENI said: This Deepwater Summit was successful to establish our Network in Asia Pacific. We made key contact with decision makers.

The 15th Offshore Asian Pacific Conference (OAP 2018) will be held on Jan 15th-16th in Kuala Lumpur, Malaysia.
